

DHENA D

Bengaluru, India | +91 9663861214 | dhenaxep@gmail.com
Portfolio: dhena-21.github.io/portfolio | GitHub: github.com/dhena-21

Professional Summary

Master of Computer Applications (MCA) graduate with strong foundations in Python programming, software development, and problem-solving. Experienced in developing web applications and machine learning solutions through internships and academic projects. Passionate about building scalable software and continuously learning new technologies.

Education

Master of Computer Applications (MCA) Kristu Jayanti University	2024 – 2026 Bengaluru
Bachelor of Computer Applications (BCA) Baldwin Methodist College	2021 – 2024 Bengaluru
Pre-University Course (PUC) Indiranagar Composite PU College	2021 Bengaluru

Technical Skills

Programming: Python, C++, JavaScript
Backend Development: Flask, REST APIs
Databases: MySQL
Machine Learning: Scikit-learn, TF-IDF, Logistic Regression
Tools: Git, GitHub, Linux CLI, Docker (Basic)
Core Concepts: Data Structures, OOP, Database Concepts
Soft Skills: Communication, Problem Solving, Teamwork, Adaptability
Languages: English, Tamil, Kannada, Hindi

Internship Experience

Frontend Developer Intern	VTech Integrated Solutions
- Developed responsive UI components for the TACOS cloud kitchen platform. - Improved cross-device compatibility and mobile responsiveness. - Collaborated with backend developers to integrate REST APIs. - Worked with Git-based version control and team development workflows.	
Python Developer Intern	NanoAcademics
- Developed educator and student modules using React, Node.js, and MySQL. - Integrated Google Gemini AI for quiz generation and assignment management. - Implemented role-based authentication and responsive dashboards.	

Projects

AI-Powered Notes Assistant (RAG)
- Built a Python-based question-answering system using semantic search and Retrieval-Augmented Generation. - Implemented vector embeddings for efficient information retrieval.
AI Text & Image Detection System
- Developed ML models using TF-IDF, Logistic Regression, and MobileNetV2. - Built Flask REST APIs to serve prediction results through a web interface.
MEAN Stack Deployment & CI/CD Automation
- Deployed a containerized application using Docker, AWS EC2, Nginx, and GitHub Actions. - Automated build and deployment workflows through CI/CD pipelines.

Certifications

- UiPath – Introduction to Agentic Automation
- Infosys Certified Java Programming

Achievements

- NSS State-Level Certification
- Research Paper Presentation at KJU National Symposium
- NSS Election Awareness Participation
